- (C) A representative from the Bargaining Unit will be appointed by the Bargaining Unit and will serve on the City's Employee Benefit Committee to discuss and maintain group insurance benefits. The representative will attend the Insurance Committee Meetings, or send an alternate representative, and shall act as a liaison between the Committee and the Union working toward group insurance coverage that will be acceptable and beneficial to the employees and to the City. Any significant changes in the group insurance plan would be pending approval of the Union.

Section 3. The Employer will pay eighty-five percent (85%) of the cost of health insurance coverage and the employee will pay fifteen percent (15%). The amount paid by the employee will be rounded to the nearest fifty cents (\$.50). The City's Insurance Reserve Fund will provide a minimum of \$10,000 of life insurance coverage at no cost to the employee.

Section 4. A new full-time permanent employee is eligible for coverage under this insurance plan on the first day of the month following or coinciding with one month of full-time employment.

KELLY DAYS

Section 1. Except to accommodate personnel transfers, beginning July 1, 1990, the standard work cycle is a period of twenty-seven days. During the twenty-seven day cycle, each individual will work 192 regular hours consisting of eight twenty-four hour shifts. One twenty-four hour shift worked by the crew will be an off shift for the individual firefighter.

Section 2. Bargaining unit members will select their Kelly Days by seniority.

Section 3. Kelly Days will be selected one cycle (27 days) in advance.

Section 4. Bargaining unit members will be allowed to double up on each Kelly Day during the twenty-seven day cycle. Doubling up will be selected by crew seniority and will be subject to minimum manning requirements.

Section 5. The Union recognizes the right of the City to reschedule a Kelly Day in order to properly staff a shift. The City agrees to abide by the Everett Manship grievance regarding overtime pay if the City reschedules a Kelly Day with less than seven days' notice before the scheduled day off. If the City reschedules a Kelly Day with less than seven days' notice, the bargaining unit member shall receive twenty-four hours of additional pay at the rate of one-half times their regular hourly pay rate. If the Kelly Day cannot be rescheduled in the work cycle, the bargaining unit member shall receive twenty-four hours of pay at one and one-half times his/her regular hourly rate in lieu of the Kelly Day.

Section 6. The Union agrees to let the City schedule the Kelly Days, the first cycle of the calendar year to accommodate crew transfers.

Section 7. The Union and the City agree that this Article, and not PERB case No. 3637, represents the complete and final settlement of this matter.

ARTICLE 17

WAGES

Section 1. Longevity pay and EMT pay is incorporated into the salary schedules.

The annual salary figure effective July 1, 2005, for each classification of employment will be the annual salary from July 1, 2004, multiplied times 103%. Those annual amounts will be rounded to the nearest cent, and divided by the number of annual hours worked (either 2592 or 2080) to determine an hourly rate of pay. Those hourly amounts will be rounded to the nearest cent. The new hourly amounts will be multiplied times the annual hours worked (either 2592 or 2080) to create the final annual base salary. The payroll system will pay 1/26th of that amount each pay period as the base salary. As 2592 hours are not evenly divisible by 26 pay periods, this will result in a slight deviation from the annual salary figure for which no adjustment will be made.

Effective July 1, 2006, the same calculation as in the previous paragraph shall be made based on the July 1, 2005, wage schedules with an increase in a range of no less than 102.75% nor greater than 103.25%. The increase shall be determined by the CPI-U Midwest Region April percentage for the 12-month percentage change chart, as published by the Bureau of Labor Statistics. (www.bls.gov). The Union and the City will meet on or around June 1st 2006 to certify the percentage figure and approve the new salary schedule.

3.2 - Educational Assistance Policy

Date Approved by Council: December 23, 1991

Effective Date: December 23, 1991

The City recognizes the importance of continuing education for personal and career growth. In order to provide support toward such educational opportunities for our employees, the following guidelines will apply:

- I. Educational assistance shall not be considered an employee right but shall be granted at the discretion of management and shall be a privilege/fringe benefit.

II. PROVISIONS

- A. Educational assistance will be considered for employees who seek to:
 - 1. Complete their work-related undergraduate degree.
 - 2. Work toward an advanced degree which is work related.
 - 3. Take technical or skill-related courses that are directly job-related and are not offered in-house or through municipal and industry-related schools/courses.
- B. An institution selected for classes when working toward a degree must be an accredited four-year college/university or an accredited two-year institution which has allowable transfer of credits.
- C. Skill development or job-related courses must be taken through training or development centers which are recognized in the community and endorsed by the City for quality training and are offered on a regular basis through adult education, correspondence or other usual sources.
- D. This policy shall not apply to educational programs initiated at the request of the City (e.g., Graduate School of Management/Business) or programs necessary to meet professional requirements such as Police, WPCP, or communication operator certification, or periodic recertification which are addressed in a department's Standard Operating Procedures, State statutes, and training guidelines. Employer required courses are not considered taxable for federal/state income reporting requirements.

III. ELIGIBILITY

- A. An employee must work full-time on a regularly scheduled basis to be eligible for educational assistance.
- B. Eligibility for assistance in an undergraduate degree program will require at least two years of full-time City service with performance ratings which consistently meet or exceed requirements i.e., average or better performance evaluation.
- C. Eligibility for assistance in a graduate program requires at least three years of full-time City service with an overall performance appraisal showing consistently above average ratings.
- D. Consideration for assistance in technical, or skill-related courses will require at least one year of full-time City service with performance ratings which consistently meet or exceed requirements.
- E. All course and degree program selections must ~~relate directly to~~ the employee's current position or a logical career-directed position within the City. This would exclude Core curriculum courses necessary for graduation but not germane to the employee's position or anticipated career path. Questions as to core courses/electives will be determined by a committee comprised of the Personnel Coordinator, City Administrator, one City Council Representative, and the affected employee's Department Head.
- F.
 - 1. The maximum reimbursement for college/university related education per employee will not exceed a total cost of \$1,000 per fiscal year. Skill courses, will be considered to a maximum reimbursement of \$300 per fiscal year. This cap on expenses will include tuition only.

2. Employee's receiving educational assistance under this policy shall not be reimbursed for books (or similar class study materials), lab fees, computer fees, or other incidental expenses, mileage, meals, or lodging.

IV. PROCEDURES

- A. The employee shall submit a written request for approval to the employee's direct supervisor outlining the intended course of study, time commitment, and related expense. This requirement must also detail the manner in which the proposed course of study will directly benefit the employee and the City.
- B. The written request will then be submitted to the Department Head and to the Personnel Coordinator for consideration and review prior to submission to the City Administrator.
- C. A dollar amount will be annually budgeted by program activity, enterprise fund etc., to fund the educational assistance program. All requests for tuition assistance must meet established guidelines.

Requests will be reviewed by the City Administrator and final approval will be based on established guidelines as follows:

1. The course and/or degree program requested must relate directly to the employee's current position or a logical career-directed position within the City.
2. Seniority as stated in eligibility requirements must be met, principally years of service or in the case of competing requests for limited funding, the most senior employee in the Department/Division would gain approval.
3. Performance appraisal ratings as stated in eligibility requirements, III B & C, must be met.
4. Approval of educational assistance requests will be limited by the City's budgeted amount for such assistance. If eligible requests exceed the City's budget, selection will be based on equitable criteria i.e. seniority, business necessity, mandates, previous course work, and reimbursement for education assistance and completion status i.e. degree or certification.

V. FUNDING

- A. The employee will be responsible for paying the cost of the course tuition initially. After successful completion of the course with a passing grade of at least a "C" (2.0) and presentation of a copy of an official transcript or Registrar's office Grade Report, the employee may submit a bill for tuition, through their department/division head, to the Personnel Department and the employee will be reimbursed via the Finance Department accounting system, less any funds they are reimbursed from other student aid grants/ scholarships. Said bill/invoice needs to be from the college that shows the amount the college charged the student.
- B. Skill courses reimbursement will require an invoice from the course offerer/coordinating entity and proof that course requirements were satisfactorily completed.

VI. CONSIDERATIONS

- A. The City must follow all guidelines established by the Internal Revenue Service concerning educational assistance as taxable income.
- B. All courses and study will be completed on the employee's own time or on vacation, personal, or compensation time already accumulated. Individual Department/Division flex time type arrangements can be accommodated with Department Head approval and as long as City services/citizen responses do not suffer.
- C. The City will ask for an employee signed release and may review Registrar's office transcripts on a periodic basis to evidence achievement toward degree programs approved.
- D. All requests for assistance must be submitted and reviewed 45 days prior to school/course registration deadlines and overall department financial request must be planned for in fiscal year budget development cycles.
- E. If an employee who has received reimbursement terminates City employment within one (1) year of completion of the course, an amount equal to the full reimbursement must be repaid to the City. If an employee terminates within 2 years, 75% of the reimbursement must be repaid to the City and if termination occurs within 3 years, 50% of the reimbursement will be repaid to the City. A total permanent disability termination or layoff at the City's request will not require reimbursement.

- F. The Personnel Coordinator will prepare an annual report that outlines all educational assistance activities during the previous fiscal year, showing employee, department, course(s) taken and reimbursement, and will forward this report to the Mayor, City Council and each of the affected departments.

the WH-380 medical certification form, published by the U.S. Department of Labor. The City may request recertification every 30 days unless conditions exist that allow the City to request recertification sooner than the expiration of 30 days.

The City may require a second medical opinion, and if in conflict with the initial opinion, a binding third opinion. Both the second and third opinion shall be at the City's expense.

- * An employee on medical leave due to the employee's own serious health condition may not return to work without a fitness-for-duty medical release from the health care provider who has been treating the employee for that condition stating that the employee has the capability to perform the assigned tasks as outlined in the employee's position description. A statement from a health care provider merely stating that the employee may return to work will not constitute a fitness-for-duty medical release and will not be accepted by the City as evidence of a capability to return to work.
- * The City shall request periodic progress reports from an employee on leave regarding the employee's status and intent to return to work. The City may replace an employee who is on leave for the duration of the leave.

Job Benefits and Protection

- * Employees taking leave under the Act are entitled to receive health benefits during the leave on the same terms and at the same percent of premium payment as if they had been at work throughout the leave, if the employee was covered by the City's group health plan prior to the leave.
- * If the employee is on unpaid leave the employee's share of the group health premium shall be due from the employee on each payday that the premium would have been deducted from the employee's payroll check if the employee were not on unpaid leave. The employee will be required to pay the premium to the City Clerk's office on or before 5:00 p.m. on the regularly scheduled day that payroll checks from which insurance deductions are made, are distributed to City employees. The City's obligation to maintain health insurance coverage ceases if an employee's premium payment is more than 30 days late.
- * If the employee fails to return from leave, the City shall have the right to recover the City's share of the premium for maintaining the group health coverage during any portion of an unpaid leave unless the employee is *unable* to return to work at the end of the leave due to circumstances beyond the employee's control, such as the continuation, recurrence, or onset of a serious health condition.
- * Upon return from FMLA leave, most employees must be restored to their original or equivalent positions with equivalent pay, benefits, and other employment terms. Special provisions concerning key employees (employees who are among the highest paid 10% of all City employees) will be reviewed on a case-by-case basis at the time the key employee requests FMLA leave or as soon as practicable after receipt of a request for leave.
- * The use of FMLA leave will not result in the loss of any employment benefit that accrued prior to the start of an employee's leave, however, seniority and other employment benefits will not accrue during any unpaid portion of the leave.

The City shall not discharge or discriminate against any person for lawful use of any rights or privileges extended by the FMLA.
